#### **NOTE OUT OF CONTROL [TDO123]**

Much to his surprise, GT's grandmother sends him a remote control toy car for a present. Strut wants to play with it, but GT says he can't play with it until he finishes fixing his engine for the race. Strut decides to leave the remote control car outside to play without telling GT. He loses control of the car and misplaces it. Strut gets back to the clubhouse and comes up with a game to distract the other Turbo Dogs while Stinkbert helps him find the missing toy car. GT overhears Strut talking to himself about losing the toy car and takes off after him in the race. During the race, Strut accidentally sits on the toy car's remote control and it comes out from under the bleachers. Strut doesn't realize he is controlling the toy car and he maneuvers it along the racetrack, beating the Turbo Dogs and winning the race.

**[Educational Message: You should always ask to use your friends' toys before taking them.]**

### **THE LEGEND OF THE SPOOKY BUGGY [TDO123]**

On the way home, GT sees a car with a red glow driving on the track at night. Back at the clubhouse, Strut tells everyone about the legend of the "Spooky Buggy," a ghost car without a driver that looks for cars to race at night. Mags says there is no such thing as a ghost car and GT should face his fear to find out what he really saw. Strut overhears and decides to play a dirty trick on GT, but when he arrives he sees the "Spooky Buggy" with his own eyes. Racerville goes into a frenzy of fear over the "Spooky Buggy" because of Strut and GT. Mags and GT go to investigate and find that the "Spooky Buggy" is really just the remote control car Wrenchini built. Wrenchini built the car as a surprise for Five to deliver pizzas.

**[Educational Message: If you are spooked by something, you should face your fears and investigate what it really is because you may be pleasantly surprised.]**

### **MASCOT MOJO [SHL002]**

The shells are trying out for the Coral Deep High School Fin-Ball team, which has a history of major losses. Sheldon doesn't make the team, and ends up being the team mascot. As a consolation, Crabby tells him the mascot is important; it's got the mojo to help the team win. At one game, Sheldon catches the ball in his bulky blowfish costume and manages to score a touchdown. Now the star player, Sheldon will not take off the blowfish costume, believing it is his mojo and the reason for the team's success. Then Cracken organizes a high stakes game with his own players and makes a bet that the winner of the game will get to drill for oil on the stadium land. Sheldon's "suit" has shrunk in the family laundry and he thinks he has lost his mojo. Dr. Shell gives him a new mojo, and Sheldon plays superbly. But, not until after the game, does he find out that the new mojo was just a peanut butter treat; he succeeded because of his own skill and confidence.

**[Educational Message: Work hard and believe in yourself to achieve success. Lucky charms do not make you better; they can only provide you with comfort.]**

### **THE MAGIC SCHOOL BUS GOES ON AIR [MSB403]**

Ms. Frizzle's class decides to submit something for the Walkerville space capsule but they are stumped for ideas. After enlisting the help of Ms. Frizzle they decide to contribute air. All they have is a pickle jar so they decide to get inside the bus to figure out what will make air in a pickle jar interesting enough for the space capsule contribution. Once the bus is inside the pickle jar, however, Ms. Frizzle and the class get stuck. Ms. Frizzle finds her tool box, and fashions a tool she calls the vacator to get them out, but it doesn't work. Ms. Frizzle then comes up with another plan. She suggests they use air pressure to push one of them out of the jar. The class fills a hand glove with air to launch Keesha out of the jar but air pressure stops it before she could bounce high enough to escape. The class finds a cork-popper and realizes if they created a larger version of the cork popper and filled it with air, they could use it to propel someone

out of the bottle. Ms. Frizzle transforms the bus into a tubular cork popper, and Ralphie and Keesha are placed in a pod that the cork popper would launch. This strategy is successful and the two reach the space capsule leaving a poem about "Air" and the air pressurized cork popper. Ms. Frizzle brings Ralphie and Keesha back to normal size. When they return to the classroom, everyone is out of the bus remarking that the class always works best "under pressure."

#### **THE LEAD BLIMP [BAR204]**

For the Celesteville Inventor's Contest, Arthur decides to invent a bicycle-driven lead blimp that relies on peanuts for fuel. Babar finds that Arthur doesn't have a plan for his invention and advises him to take the time to plan it properly. Arthur stubbornly disagrees and asks Rataxes for his support and funding in exchange for the chance to gain popularity. But the test flight goes wrong and the blimp falls apart. Rataxes finds the mess and warns Arthur and Zephir that the blimp should be ready the following day. Arthur returns to Babar who emphasizes his own need to plan before doing something. Arthur decides to heed Babar's advice and spends all night drawing up plans but he cannot finish on time. On invention day, Arthur apologizes to the public for not preparing adequately and warns against flying the blimp. Rataxes doesn't listen and the blimp blows up. Babar commends Arthur on his honesty and encourages him to continue planning and building his invention. Arthur completes his plans and is able to make the lead blimp fly.

#### **ALLIGATOR ATE MY HOMEWORK [WIL007]**

When Willa's school project is ruined, all eyes turn to Gus who is usually responsible for eating things. Gus insists that he is not guilty, but the animals have a hard time believing him. Willa and Dooley look for clues to try to find the culprit rather than blame Gus. They find a paint can that is too high for Gus to reach and a long footprint. All the clues seem to point to Koko who breaks down and confesses. The animals learn a lesson in telling the truth and not jumping to conclusions.

**[Educational Message: Don't jump to conclusions and place blame without proof. If you're honest about your mistakes, you'll probably be forgiven.]**

Saphira, shocked that she is not on the good list, does not want anyone else to get presents if she cannot. She puts a spell on Jingle, steals her Christmas Fairy dust, and destroys the tree. Hoping to become as big as a dragonfly, he finds out the fairy spell from Great Aunt Garnet and tries it on himself even though she warns of the danger. The spell makes him the size of a person and Jasper is happy until he realizes that he is still an elf and does not want to be so large. Pearlle hides Jasper while Opal goes to find the Turquoise Fairy to help change him back to elf size. Saphira selfishly decides to reveal Jasper's location to "the persons" so that she can have a more exciting story for the autobiography she is writing. The Turquoise Fairy stops her and changes Jasper back and he realizes that the size he was before was just fine.

Dear Alex,

Upon review of several programs, it is my opinion that "Animal Rescue" is an educational and instructional television series for children 16 years of age and younger. As a teacher, lecturer and Doctor of Veterinary Medicine, I feel "Animal Rescue" is specifically designed to educate and inform children about various types of animals and their care, as well as showcasing professional and non-professional people exhibiting selfless dedication assisting animals in need. The programs not only educate youngsters about a wide and diverse range of the world's animals, their habitats and how they live, but they also offer instruction on medical and rehabilitation techniques and address the social aspects and emotional concerns of being a responsible citizen.

As an Adjunct Professor at Western University School of Veterinary Medicine, a lecturer at UCLA Extension and a practicing veterinarian, I would recommend "Animal Rescue" to parents, educators and broadcasters as an excellent example of informational programming serving young viewers.

Sincerely,

Re: "Animal Rescue"

Dear Alex:

You asked me to review the program "Animal Rescue" and provide my opinion as to its educational and informational value for children under 16 years of age. I am happy to do so.

I believe the program exerts a extremely positive influence on young viewers; the stories are wonderful illustrations of the best of human instincts. Its particular strengths are its themes of respect and compassion for all living creatures, its informative instruction on medical rehabilitation treatments and the techniques and teamwork of rescue personnel. It provides valuable information to young viewers about the animals themselves, their habitats, development and behavior, and also promotes awareness of important environmental issues.

"Animal Rescue" strongly promotes the kind of pro-social values that are of inestimable importance in shaping the growth and character of young people. It is a sorely needed antidote to so much of television programming that presents a negative view of society and human behavior. The program is an excellent vehicle for informing and educating children and would be a valuable addition to any broadcaster's lineup. The public interest is well served by this series.

Sincerely yours,

Educational and informational television programming is programming that furthers the educational and informational needs of children 16 years of age and under in any respect, including the child's intellectual or social needs and that also satisfies the following criteria:

1. The programming must have a significant purpose. Education need not be the only one. That purpose must serve the needs of children ages 16 and under.
2. Commercial broadcasters must provide the educational and informational objective of core programming in writing. The report will indicate a specific target age group for core programs.
3. Core programming is scheduled from Monday - Wednesday from 11:00 AM – 12:00 PM EST.
4. The program must be regularly scheduled so that it can be published in program guides consistently.
5. The program must be of a substantial length – 30 minutes or more.
6. Quarterly reporting of the schedule and hours of E/I programming to the FCC is required.
7. If E/I programming is preempted, written notice is necessary to identify where and why the E/I programming was preempted.
8. The program must be identified as specially designed to educate and inform children by the display on the television screen throughout the program of the E/I symbol.

**Example of E/I Programming**
